SR1

Name: **Joint compound**
For SL, SM and KG, 225 g
Type: SR1
EAN: 6418677405402

Description: SR1 is used to prevent oxidation on aluminium surfaces. The use of the wire brush and joint compound SR1 reduces the transition resistance. It also protects the connection from corrosion. There are no skin-irritant ingredients in the grease. Used for SL, SM and KG connectors and aluminium, steel and copper conductors.

Package:
Unit: PCS

Technical specification

Weight (kg): 0.254
For connectors: SLxx; SMxx; KGxx
