

Printer kit with paper take-up reel for IQ8Control C/M

Part No.: 784892

Approval:

Description

40 characters, printer with fixed print head.

Technical Data

Abmessungen

Additional information

When the printer is installed in the FACP IQ8Control C, the battery case, including toroidal transformer, must be replaced by the mounting rack. The batteries and the toroidal transformer must be installed in an additional extension housing, either 789300 or 789301.
