MPO Cassette Cleaner

The OPTIPOP R is a cassette style fiber optic connector cleaner system that can be refilled for reducing cleaning costs. It uses a densely woven micro-fiber cleaning fabric to remove harmful contaminants off of the ferrule end face. The OPTIPOP R cassette cleaning tool will accommodate all single fiber connections. Our versions of the OPTIPOP R cassette cleaning tools are designed specially for cleaning Multifiber connector systems including the MPO/MTP Brand Connectors, standard MPO and MTRJ connectors for both single mode and multimode connectors. The customised OPTIPOP R cassette cleaning tool will accommodate the alignment guide pins on male MT ferrules. The cleaning fabric is pre-washed and produces less than 70 pcs/CFM of particles > 1mm in size, making this system excellent for use in any production environment including clean rooms.

FEATURES/BENEFITS

- MTPCLEANREEL-F - For cleaning all single fiber and female MPO ferrule connectors
- MTPCLEANREEL-M - For cleaning male (with guide pins) MPO connectors
- MTPRCR - OPTIPOP Refill 6 Pack. Replacement reels for all OPTIPOP R cassettes
- Replacement reels are easy to install and reduce the cost per cleaning 400+ Cleanings
- Eliminates electrostatic charge
- The washed, ultra clean micro-fiber cloth captures debris and other contamination
- The cloth is robust, it does not fray or leave any fibrous materials behind
- The most cost effective high-end cleaning solution available

ORDERING INFORMATION

DESCRIPTION	PART NO.
Female MTP®/MPO ferrule cleaner	MTPCLEANREEL-F
Male MTP®/MPO ferrule cleaner	MTPCLEANREEL-M
OPTIPOP Refill 6 Pack	MTPRCR
